

FOOD & FIBRE EDUCATION SA

SA GRAINS INDUSTRY EXPO

WEDNESDAY 5 JUNE 2019

Charles Hawker Building, University of Adelaide, Waite Campus

Your school is invited to attend a one-day expo to explore research technology, innovation and opportunities in the Australian Grains industry.

Targeted at year 9 and 10 students, this one day expo will provide and engage students in how research technologies and innovation are being used to solve global problems such as food production to support a growing population.

Students will rotate through workshop stations to explore: Grain production, bulk handling and quality, precision agriculture, soil borne diseases, weather monitoring and plant breeding. In addition to the workshops students will also be able to tour the Waite Plant Accelerator and research facility.

Includes:

- Interactive workshops where students get to conduct science experiments and activities
- Tour of the Waite Plant Accelerator
- Showbag with careers information
- Presentations by researchers and industry experts
- Free lunch

Who:

Year 9 and 10 students

Cost

Free

When

Wednesday 5 June, 9.15am-3.00pm
